randeljairus@gmail.com

+63 997 082 5154

Trece Martires, Cavite

A Graduating Computer Science student who's passionate about designing simple yet aesthetic Web and Mobile applications that are able to capture the mind and eyes of users, a student seeking to improve his skills through learning and experience.

Technical Skills

HTML, CSS, LESS, Bootstrap, RWD, Figma, Photoshop, Canva, UI/UX Design, Web and Mobile Design, Git, GitHub, JQuery, MySQL, SQL Queries, Database Design, PHP, CodeIgniter, MVC, Ajax, Python, Java, React JS, Flutter, Dart, Sony Vegas.

Internships

Village88 Inc. - 2022

Certified Web Proficient

- Able to finish the exam with enough time to polish and refactor code making it easier to read and understand, showing enough understanding of how HTML and CSS work. The student intern received a 10/10 grade for this exam.

Certified Advanced PHP Proficient

- Build a simple web app that has CRUD operation, pagination, and filtering using HTML, CSS, CodeIgniter 3, PHP, MySQL, and AJAX. This demonstrates the intern's proficiency in said technologies by passing the exam.

RightValley - 2021

Junior Mobile App Developer

- Given an opportunity to fix bug and add features on two (2) mobile application DUDU PH and BOWOWOW which uses Flutter, Dart, and Java before delivering it to the client for their satisfaction.

Projects

CVSU Stakeholders feedback form with Sentiment Analysis (Thesis)

- Digitalize Stakeholders form for Cavite State University that uses machine learning in order to analyze the comments and suggestions given by the clients.
- Apply Figma literacy by creating web mocks up and designs that will be followed throughout the development process.
- Main frontend developer for this project.
- Technologies used: Figma, HTML, CSS, JQuery and Django.

REABO - Read A Book (Capstone Project)

- A trading and buying platform focusing on book lovers in Cavite who wants to trade and sell their books to like-minded fellows.
- Technologies used: Figma, HTML, CSS, React JS, and Firebase.
- Web Designer and Frontend Developer
- <https://github.com/RandelMesa/REABO>

MemoryLamp (Collaborative Project)

- Mobile application for Christians who want to memorize bible verses.
- <https://github.com/MemoryLamp/>
- Technologies used: Figma, Flutter, and Firebase.
